

E.g.g. Sales Ltd.
PVC and Polymer Distribution

Environmental Policy

In our day and age environmental issue are responsibility of us all. At CJP we take this responsibility very seriously, we are committed to reducing the impact our business has on the environment.

To do so we have taken the following steps:

- Where ever possible, use recycled stationary in our office.
- We use recycled pallets
- We work hand in hand with AMF Polymers to collect and recover waste plastic for recycling.
- We assess our suppliers in order to ensure that their manufacturing standards meet the standards set out in ISO:14001
- We are committed to providing materials ROHS and REACH compliant to ensure continuity of supply.

We are always open to discussing any concerns that our customers may have and introducing improvements to our policy, which is reviewed annually.
