

Certificate of Conformity

(Prime Grades/Reprocessed Polymers)

Certificate of Conformity will be provided for all material supplied. The certificate states that all materials conform to the standard set out by the manufacturer as stated on the technical data sheet.

Delivery Note

There is a statement on each delivery note. The delivery note also states the Batch number; CJP Sales order number and the customer order number. This information allows full trace ability through the supply chain to the manufacturer.

Invoice

Each invoice also carries a Certificate of Conformity and the relevant batch and order number information.

Annual Certificate of Conformity

These are available on request or can be down loaded in a PDF file covering January – December.

Annual Certificate of Conformity down load PDF file.

Certificate of Conformity

(B grade materials)

In some cases B graded materials are offered to customers for “fit for” purpose applications. These grades do not meet the specifications of the prime grades material. The batch number and the nature of the defect are started on the Certificate. The exact nature of the defect is discussed with the customer prior to dispatch and it is agreed at this stage the suitability for the application. This Certificate of Conformity is sent with the sales order acknowledgment.
