Environmental Policy

The Company recognises that concern for the environment should be an integral and fundamental part of its business operations. As a result, the Company will seek to address all of its environmental issues and promote the continual improvement of environmental performance.

The Company will:

- Promote a sense of responsibility for the environment and ensure that this policy is communicated and implemented at all levels within the workforce.
- Demonstrate a commitment to the prevention of pollution.
- Comply with all relevant local, national and international legislation and codes of practice.
- Minimise material and energy usage wherever feasible.
- Minimise waste and ensure the safe disposal or destruction of waste where reuse or recycling is not viable.
- Support the local economy through purchasing goods locally where possible.
- Encourage active and responsible participation in the achievement of this Policy.

Regular monitoring of energy consumed and wastes arising will ensure that progress made towards achieving an improvement in environmental performance will be maintained.

Appropriate resources will continually be made available to ensure the policy is implemented in full.

This Environmental Policy will be reviewed on a regular basis and revised as necessary to reflect changing conditions and information.
